

# Year 4 Multiplication Tables Check Presentation

**Friday 9th February 2025**

# Multiplication Tables Check (MTC)

The multiplication tables check (MTC) is statutory for primary schools from the 2021/22 academic year.

The purpose of the MTC is to determine whether pupils can recall their times tables up to 12 fluently, which is essential for future success in mathematics.

# What is the Multiplication tables check?

It is an on-screen check consisting of 25 times table questions. Your child will be able to answer 3 practice questions before taking the actual check. They will then have 6 seconds to answer each question. On average, the check should take no longer than 5 minutes to complete.

# Where and when is the MTC held?

In school, between Monday 2nd June and Friday 13<sup>th</sup> June 2025

Absent children: Monday 16<sup>th</sup> June to Friday 20<sup>th</sup> June)

# Where and when is the MTC held?

In school we will start to practice using the DfE's official TRY IT OUT area from April 2025.

# What if my child cannot access the check?

There are several access arrangements available for the check, these can be used to support pupils with specific needs. Your child's teacher will ensure that the access arrangements are appropriate for your child before they take the check in June.

# Why is it essential times tables are learnt?

Recalling times tables **improves memory skills**, which is a transferrable skill that will help children throughout school and into adult life. Children will find it easier to solve maths problems and to do mental arithmetic if they have already memorised their times tables.

# Will I receive feedback on my child's check?

Yes. Your child's teacher will share your child's score with you, as they would with all national curriculum assessments. There is no pass mark for the check.

The results of your child's MTC will be shared with you in the Summer term.
